(c) Mode selection

Mode

Dockerfile Repair · easy

Team Mode

3 humans

Collaborate with a Planner and Verifier. Each role has different access.

NOT STARTED

Solo Mode

1 human

Full access to everything. Spec, code, terminal, and verification.

NOT STARTED

Hybrid Mode

1 human + 2 AI

The Human is the Verifier. AI Planner + AI Executor write code; the Human grades it.

NOT STARTED

Pick your role:

Planner

Read spec, create plan, guide the team

Executor

Write code, run commands, implement fixes

Verifier

Review work against spec, pass or fail
